I. EDUCATION

B.S. Wildlife, Fish, and Conservation Biology: Ecotoxicology, University of California at Davis, 1999.

B.A. Studio Art, University of California at Davis, 1999.

M.A. Biology, Boston University (Boston University Marine Program), 2003.

Ph.D. Pathobiology, University of Connecticut, Storrs, October 2014. Dept. of Pathobiology and Veterinary Science.

Certificate Core Public Health Competencies, University of Connecticut Masters in Public Health Program & Connecticut Department of Public Health, August 2012.

II. PROFESSIONAL APPOINTMENTS AND RESEARCH EXPERIENCE

Program Officer- Island Foundation (5/02/19- current). Responsible for managing the education portfolio and environment portfolio of the Foundation for grants within the Southcoast MA and greater New England region. In addition, Initiated a Marine Conservation Resiliency Fellowship. Manager of the Fishing Gear Marking Development Fund created to incentivize the creation of geo-locating technology to apply rope-less technology in our oceans. Grant management for each portfolio occurs quarterly. Directives of the foundation include increasing equity and inclusion in all aspects of managing grants with partner organizations.

Visiting Investigator- Woods Hole Oceanographic Institution (9/01/2018- 8/31/2019). Characterizing marine mammal bycatch and depredation through cooperative fisheries research in northeast sink gillnet fisheries. A multidisciplinary study working with commercial fishermen to video document occurrence of bycatch and depredation and applying genomics and hard part analysis in the lab to understand diet of seals. The goal is to reduce interactions by understanding how, when and why they occur.

Consultant- Revive & Restore (5/01/15-6/15 2018). Ocean Genomic Horizon Scan. A project to determine the biggest risks and solutions for Ocean Health and identify issues to distribute \$10 million in funds. Tasked with reviewing the most recent developments in Marine Mammal Health and interviewing the global leaders in marine mammal science.

Postdoctoral Investigator- Woods Hole Oceanographic Institution, (9/01/17-8/31/18). Continuation of postdoctoral fellow data analysis and writing for publication for the Morris Animal Foundation Postdoctoral Traineeship.

Postdoctoral Fellow- Woods Hole Oceanographic Institution, (9/01/15-9/01/17). Morris Animal Foundation Traineeship Fellow. Postdoctoral project title: Assessing the pathogenesis and host

susceptibility to dolphin morbillivirus in cetaceans. Working with six mentors in six institutions, accomplishments include gaining experience in marine mammal policy, diagnostic laboratory skills, histopathology, sample coordination between dozens of marine mammal stranding networks, live animal capture programs and marine parks. Four grants were written and funding received, to complete the project.

Postdoctoral Trainee- Woods Hole Oceanographic Institution/NOAA, (1/01/15-9/30/15). This traineeship postdoc opportunity allowed for experience working with the NOAA Marine Mammal Health and Stranding Response Program. Duties including work to develop Health MAPP, a database system incorporating environmental, animal and ocean health data to understand marine coastal and ocean issues. Duties also included working in marine mammal rehabilitation facilities in California to restrain, feed and necropsy California Sea Lions during the Unusual Mortality Event. Work and skills also included writing manuscripts from previous PhD work.

Graduate Research Assistant- University of Connecticut, Storrs, Department of Pathobiology and Veterinary Science (9/08/11, 9/01/12-9/01/14). Conducted graduate research on Phocine Distemper Virus including experimental design, sample coordination, laboratory work, writing manuscripts for peer review publication and thesis writing. Skills include quantitative PCR, PCR, histopathology, viral isolation and writing. Work was conducted with fellowships and grants received. Budgets created for each to support salary and laboratory analysis costs of my own research and salary.

Research Associate II- Woods Hole Oceanographic Institution (03/01/07- 01/01/15); **Research Assistant I** (10/01/05- 03/01/07)-. Duties include research, necropsy, writing and sample coordination for several projects. The major projects involved a NOAA Oceans and Human Health project to conduct a survey of marine animal zoonotic pathogens as well as determination of cause of death for marine mammals. Accomplishments include the publication of several peer reviewed manuscripts, lectures and talks at national and international conferences. Related skills include necropsy of marine birds, marine mammals and sharks, sample preparation for virus, fungal bacterial and parasite pathogens, Access database creation and implementation as well as improved marine animal necropsy skills. Additionally, work to increase collaborations and outreach were accomplished including with the fishing industry and partners, marine mammal stranding networks, terrestrial wildlife researchers, academic institutions as well as marine laboratories. This also included the direct supervision of several interns, students and volunteers and coordinating laboratory safety training and updates. Skills also include small boat operation, field work coordination and permit application for marine mammals and working on federally protected land as well as management of several competing project deadlines, priorities and objectives simultaneously.

Consultant- Biodiversity Research Institute, Maine, (7-9/08). Development of protocols for scat collection from free ranging harbor seals for mercury analysis.

Stranding and Database Coordinator- Eastern Caribbean Cetacean Network (ECCN) (9/05-9/15). Organized historical and current marine mammal stranding data for the Eastern Caribbean as well as organized trainings and workshops for the Spanish, English, French and Dutch Caribbean. Capacity building involved training both live and dead response to facilitate the creation of marine mammal stranding networks in these island nations and coordinating supplies and global expertise.

Necropsy Coordinator- Cape Cod Stranding Network, Inc. (04/01/03-10/01/05). Through the work of the Cape Cod Stranding Network, Coordinate with National Oceanic & Atmospheric Administration (NOAA)

colleagues and external stranding response network partners to organize and execute the response and rehabilitation of injured and distressed marine mammals throughout the region. Coordinated marine mammal necropsies including small and large cetaceans, seals and porpoise. Accomplishments include the creation of a streamlined data collection and sample processing method for all dead stranded marine mammals including a code system for cause of mortality. A summary manuscript was published with this data in 2008 summarizing mortality trends in marine mammal of Cape Cod. Skills include trailer and small boat operation, marine mammal rehabilitation/triage, beach response, training of volunteers and interns as well as communication of science with the general public as well as scientific community locally and nationally. Public education and outreach is a large component of the work done through the stranding network to increase awareness of marine mammals and promote protected species conservation programs.

Guest Investigator- Woods Hole Oceanographic Institution, (04/01/03-10/01/05)

Guest Student- Woods Hole Oceanographic Institution, (06/01/01-04/30/03). Appointment in the lab of Dr. John Stegeman to complete Master's research work on CYP1A1 studies in seals of Cape Cod.

III. TEACHING EXPERIENCE

Faculty- Marine Studies Consortium (9/02/2020-current). Bio 240A Introduction to Marine Mammals. Development of curriculum and course work for undergraduate students from several universities. This course covers basic biology, anatomy and physiology, threats to marine mammals, laws and human dimension research. Fall 2020 was developed into an on-line synchronous course.

Adjunct Faculty- Massachusetts Maritime Academy, Buzzards Bay, MA. Marine Mammals 4329-19 (03/01/2019- current). Development of curriculum and course work for undergraduate students. This course covers basic biology, anatomy and physiology, threats to marine mammals, laws and human dimension research, with an emphasis on species and issues relevant to the experiences that the cadets at MMA may encounter. This includes interactions with North Atlantic rights and the navigational challenges to both whales and vessels. Spring 2020 & 2021 were developed into an on-line synchronous course.

Adjunct Lecturer- Bridgewater State University, BIOL 408 Marine Mammal Biology, (07/05/2015-8/04/2019); Marine Conservation Challenges, Senior College (Fall 2020). Duties include development of curriculum and course work for 10-20 undergraduate and graduate students in this intensive summer science and writing course. Along with this course, lectures are given outside of the normal course time for the "ask the professor" lecture series to promote open public education and outreach. A one -day workshop was also developed on Marine Mammals and Ocean and Human Health for the public.

Teaching Faculty- Shoals Marine Lab, ME (UNH/Cornell). Introduction to Marine Mammals, (05/28/2015-08/20/2019). Co-Instructor for Marine Mammal Biology for undergraduate students from several universities. The course is an intensive 2-week summer course where students and faculty are expected to work 10 hours a day immersed in science, writing, teaching and communicating science. Classes are between 10-20 students. Students and faculty live at the Shoals Marine Lab. Related skills include course development, small boat operation and teaching science to a diverse range of students in an intensive 2 weeks course period. Education program analysis and evaluation is completed for every year of the course.

Marine Mammal Research Mentor/Seal Program Lead- Shoals Marine Lab, ME (UNH/Cornell) (05/20/2011-current). This mentorship and research program includes the development of science based curriculum and implementation of a long term undergraduate education program for Seal Research. This data set has been used for aiding in management of marine mammals and presented at national and international conferences. Grants were written and awarded to support the program and materials for the internship program that supports up to three interns each summer. Skills include boat handling, photo ID, teaching, curriculum development and organizing guest lecturers to the island. Related skills also include writing and obtaining marine mammal research permits as the PI for Level B harassment for this research. Skills also include resolving and finding alternative solutions to interpersonal personnel problems that arise with undergraduate students in a long term field station environment. Strategies to alleviate tension, including mindfulness and stress coping mechanisms, have been implemented into the internship curriculum. Fourteen students have been mentored through this program.

Instructor- Woods Hole Children's School of Science, Woods Hole MA, (06/01/2002-7/30/2018) Developed coursework and curriculum for several classes including: Seashore Life (age 7-8), Marine Mammals (age 13-15), Experiments in Woods Hole (age 13-16) and Global Sustainability (age 13-15). Classes are three weeks long each summer.

Mentor- Northwest Atlantic Seal Research Consortium (NASRC)- Mentorship/Students (06/2013-current) Three students have been mentored through NASRC directly to assist in graduate program and degree completion based on the work of NASRC.

IV. RESEARCH SKILLS

Laboratory- Immunology assays, clinical marine mammal blood evaluation (cbc/chemistry), ELISA, PCR, quantitative PCR/RT-PCR with Syber and Taqman technology, immunohistochemical staining, multiplex qPCR and probe development, microscopy, cytology, standard microbiology techniques, flow cytometry, stable isotope sample preparation, gross pathology and necropsy of marine mammals (large whales, small cetaceans and pinnipeds), sharks and seabirds. Computer Software: Proficient in Microsoft Office, ArcGIS, SigmaStat, Minitab, ACCESS database development.

Field- Small boat operation; deep water camera system deployment, operational experience of trawl, sink gillnet and hook and line fisheries; first aid and CPR; pinniped and cetacean restraint, handling, health assessment and biological sampling, tagging (flipper), tagging (instrumentation), biopsy sampling; large whale/small cetacean and pinniped field necropsy; photography.

Marine Mammal Research Captures

All capture work on gray and harbor seals was through collaboration with National Marine Fisheries Service (NMFS) Northeast Fisheries Science Center staff in Woods Hole, MA. Through these collaboration, including work with NEFSC protected species branch staff, results and impacts of work was assessed with an emphasis on species protected by the Marine Mammal Protection Act. While seals are not protected under the Endangered Species Act, the impact on the habitats and ecosystems on which they depend was also considered in our research.

2001 Gray seal pup captures, Muskeget Island, MA. Biological sampling, handling, Sampling by invitation of NMFS NEFSC, Woods Hole, MA.

2011 Adult harbor seal captures, Rockland, ME and Chatham, MA, April 2011. Biological sampling, handling, planning and logistics by invitation of NMFS NEFSC, Woods Hole, MA.

2012 Adult harbor seal captures, Rockland, ME April 2012 and Long Island, NY December 8th 2012, Biological Sampling, handling, planning and logistics by invitation of NMFS NEFSC, Woods Hole, MA.

2013 Adult gray seal captures, Chatham, MA. June 16-20th 2013, Biological sampling, planning and logistics by invitation of NMFS NEFSC, Woods Hole, MA.

2014 Gray seal pup captures, Muskeget Island, MA. January 16-24th, Planning and logistics with Mystic Aquarium, Mystic, CT, MIT, and NMFS NEFSC, Woods Hole, MA.

2015 Gray Seal pup captures, Muskeget Island, MA. January 16-24th Sampling, Planning and logistics with MIT and NMFS NEFSC, Woods Hole, MA.

2015 California Sea Lion Unusual Mortality Event, Support team to assist with necropsy and live animal response, February-June, by invitation of NOAA MMHSRP at the Pacific Marine Mammal Center, Laguna Beach CA; Fort Macarthur Marine Mammal Center, Long Beach CA; the Marine Mammal Center, Sausalito CA.

2015 Bottlenose dolphin Health Assessment Captures, Brunswick, Georgia. September 10-16th, by invitation of NOAA.

2016 Gray seal pup captures, Monomoy and Muskeget Island, MA. January 16-24th, Planning and logistics with MIT and NMFS NEFSC, Woods Hole, MA.

2017 Gray seal pup captures, Monomoy and Muskeget Island, MA. January 16-24th, Planning and logistics with MIT and NMFS NEFSC, Woods Hole, MA.

2018 Gray seal pup captures, Monomoy and Muskeget Island, MA. January 10-24th, Planning and logistics with Tufts and NMFS NEFSC, Woods Hole, MA.

2019 Gray seal pup captures, Monomoy and Muskeget Island, MA. January 10-24th, Planning and logistics with Tufts and NMFS NEFSC, Woods Hole, MA

V. AUTHORIZATION/MARINE MAMMAL PERMITS

Principle Investigator- MMPA General Authorization 20412: 2016-2021

Co-Investigator MMHSRP Permit # 18786-01: 2017-2020

Co-Principle Investigator MMPA General Authorization 17670-16260 NEFSC: I 2011-2018 NMFS Education/Parts: Permit holder.

NMFS Marine Mammal Tissues for health research purposes: Permit holder.

VI. AWARDS

Professional Residency/Fellowships

2019 Emerging Young Scientist is Residence, Mystic Aquarium (offered)

2018 Knoll Farms, Better Selves Fellow

2018 Peaked Hill Trust, Artist/Scientist in Resident at the Cape Cod National Seashore

Graduate

Switzer Environmental Leadership Fellowship Best Student Poster, American Fisheries Society Southern New England Regional Chapter Meeting
Multicultural Fellowship Award UCONN
UCONN Department of Pathology and Veterinary Sciences Pre-Doctoral Fellowship
Sounds Conservancy Grants Program/QLF Grant Award
Interdisciplinary Research Training Initiative on Coastal Ecosystems and Human Health Fellowship (IRICH)
Boston University Marine Program, Humes Award Grant

Undergraduate

UC Davis Chancellor's Achievement Award and Scholarship
UC Berkeley Regents Award and Scholarship
PTO Scholarship Hidden Talents and Accomplishments Scholarship
National Hispanic Scholarship Recognition Program semi-finalist
Paul McNeil/Rotary Award and Scholarship

VII. COMMUNITY LEADERSHIP and OUTREACH

- 2021** **Lead**, Northwest Atlantic Seal Research Consortium 7th meeting. Power of Partnerships. June 30th 2021. Virtual meeting in partnership with the NEFSC, Woods Hole Seal Research Program
- 2020** **At-Large Member**, Stellwagen Bank National Marine Sanctuary, Sanctuary Advisory Council (2020-current)
- 2020** **Webinar Series**, Creation of a Webinar meeting summer series for the Northwest Atlantic Seal Research Consortium (2020).
- 2020** **Grant Reviewer**, Mass Environmental Trust.
- 2019** **Chair**, Northwest Atlantic Seal Research Consortium 6th meeting. "Seals and Society: Shifting Ecological and Social Baselines," UMass Dartmouth, SMAST Campus, New Bedford MA. May 3rd 2019.
- 2019** **Truro Town Meeting**, Presentation to the Board of Selectmen on the History, Biology and Ecology of Seals of Cape Cod. January 8th 2019, Truro Town Hall, Truro, MA.
- 2018** **Panelist**, Cape Cod National Seashore, White Shark Public Information Session: Sharks, Seals, and Public Safety, November 14th 2018 Nauset Middle School, Orleans, MA.
- 2018** **One Health Task Force Participant**, One Health Commission 2018.
- 2018** **Conservation outreach development**, The Science of Seals, Sharks and Fisheries 2018. Healthy Ecosystems: Sharks and Seals, Education material developed with the Atlantic White Shark Conservancy and Northwest Atlantic Seal Research Consortium.
- 2018** **Pier Host Program**, at the Chatham Fish Pier, MA. Collaboration with the Cape Cod Commercial Fisheries Alliance, the Atlantic White Shark Conservancy and the Northwest Atlantic Seal Research Consortium. 2018-present.
- 2018** **Chair**, Northwest Atlantic Seal Research Consortium 5th Biennial Meeting: "Seals Science and Management: Where Research and Reason Meet." SMAST, New Bedford, April 27th 2018.
- 2018** **WHOI Ocean Science Café**, development of a community science lecture series with the Woods Hole Oceanographic Institution. First lecture, "Seals, Sharks and Humans."
- 2017** **Session Chair**, Anatomy and Morphology Speaker Session, Society for Marine Mammalogy, Halifax NS, Canada, October 28, 2017.
- 2017** **Panelist**, Pinniped Disentanglement Workshop Society for Marine Mammalogy Conference, Halifax, NS Canada October 28th 2017
- 2017** **Board of Trustees**, Member, National Marine Life Center, Buzzards Bay, MA. (2016-2019)

- 2017 Board Member**, Friends of Monomoy National Wildlife Refuge, Chatham, MA. (2016-2019)
- 2017 Community Leadership Institute**, Cape Cod, Class of 2017.
- 2016 Co-Chair**, Northwest Atlantic Seal Research Consortium, Health Working Group. Completed report on Pinniped Health Risk Factor. Published as a technical report through NOAA's Greater Atlantic Regional Office (GARFO).
- 2016 Guidelines for Fishermen on Marine Pathogen Exposure Risks**, in development with the Fishermen's Partnership, Center for Coastal Studies and the Massachusetts Department of Public Health.
- 2016 Pilot Program** Developed to Retrieve Fisheries Bycatch from Commercial Fishing Vessels with the NEFSC Seal Program.
- 2015 Workshop- A Cooperative Training Workshop on Marine Animal - Fisheries Interactions for Scientists, Fishermen**, Marine Mammal Stranding Network Personnel and Fisheries Managers Co-organized with O. Nichols. December 1st and 2nd 2015. Lead writer for report.
- 2015 Seminar**-Northwest Atlantic Seal Research Consortium and the Northeast Fisheries Observer Program, 1st Seminar Series, October 30th 2015.
- 2015 Workshop**- Northeast Fisheries Science Center/Northwest Atlantic Seal Research Consortium "Setting Research Priorities for the NEFSC Seal Program in 2016 and beyond." Co-Organized with NEFSC Woods Hole. October 16, 2015. Recommendations led to the five year research plan for the NEFSC Seal Research Program.
- 2015 Biennial Meeting**, Northwest Atlantic Seal Research Consortium. Seals and Ecosystem Health Organized- Salem State University, May 2, 2015.
- 2013 Media Workshop**, Northwest Atlantic Seal Research Consortium (NASRC). Organized meeting, program developed by the WHOI public relations team S. Murphy and A. Satake. August 8th 2013.
- 2013 Organizational Meeting**, Northwest Atlantic Seal Research Consortium, held at Tufts Cummings School of Veterinary Medicine. Lead organizer for meeting and workshop to develop consortium and address issues of animal-human conflict, April 18, 2013.
- 2012 Chair, Northwest Atlantic Seal Research Consortium (NASRC)** Co-founder, Steering committee member, nasrc.who.edu. (2012-current). lead member and creator of a team delivering products and services related to conservation, education, and/or outreach programs for protected species, specifically pinnipeds in the NW Atlantic.
- 2011 Marine Animal Identification Network-** main.who.edu, Developed website and database for marine mammal sightings/seal tags with WHOI web development and computer information systems specialists. PROJECT OF NASRC (current).
- 2011 Workshop**, Gulf of Maine Pinnipeds: Fisheries Interactions and Integrated Research. Workshop. Sponsored by the WHOI Marine Mammal Center. Provincetown Center for Coastal studies, October 28th, Provincetown. Chair, O. Nichols.
- 2010 Workshop, French Caribbean Stranding Workshop**, Guadeloupe. Developed training modules and lead workshop training on stranding response; marine mammal health.
- 2009-12 Graduate Student Representative** to the College of Agriculture and Natural Sciences (CANR), UCONN.
- 2009 Workshop**, Marine Mammal Stranding Response in the Dutch Caribbean, Curacao. Developed training modules and lead workshop training on stranding response; marine mammal health; necropsy.
- 2008 Workshop**, Gulf of Maine Pinnipeds: Populations, Problems and Priorities. Workshop. Sponsored by the WHOI Marine Mammal Center. Woods Hole, May 29th-29th WHOI. Lead Organizer A. Bogomolni (Grant awarded to A. Bogomolni by the WHOI Marine Mammal Center of \$25,000)

- 2005 Workshop**, Trinidad and Tobago Stranding Response Workshop, Trinidad. Developed training modules and lead workshop training on stranding response; marine mammal health; necropsy.
- 2004 Stranding and Database Coordinator**, Eastern Caribbean Cetacean Network. Stranding and Database Coordinator (09/04- 10/11).
- 2000 Volunteer**, Cape Cod Stranding Network, Inc (CCSN)/ IFAW- Volunteer (12/00- current).

VIII. RECENT AWARDED GRANTS and FELLOWSHIPS

- 2018 National Marine Sanctuaries Foundation.** Characterizing Depredation and Bycatch in NE Sink Gillnet (\$119,000, PI Owen Nichols, Co- PIs Alex Boconcelli, Andrea Bogomolni and Doug Feeney)
- 2017 US Marine Mammal Commission.** Pilot funds to Characterize Depredation and Bycatch in NE Sink Gillnet (\$40,000 PIs Alex Boconcelli, Andrea Bogomolni, Owen Nichols)
- 2016 World Animal Protection.** Photo Identification and Population Counts at the Isles of Shoals: Characterization Entanglement in Harbor Seals and Gray Seals Documented at Duck Island, Isles of Shoals, Maine (\$1,000). PI
- 2015 Ocean Life Institute, Woods Hole Oceanographic Institution.** Cetacean Susceptibility to Morbillivirus (\$38,923, PI R. Gast WHOI).
- 2015 Morris Animal Foundation Postdoctoral Traineeship Fellowship (\$100,000)**
- 2015 CINAR.** Assessing the pathogenesis and host susceptibility to dolphin morbillivirus in cetaceans (\$20,290, PI M. Moore WHOI).
- 2014 Worthington Foundation.** A Cooperative Training Workshop on Marine Animal - Fisheries Interactions for Scientists, Fishermen, Marine Mammal Stranding Network Personnel and Fisheries Managers (\$9,000)

XII. CONFERENCE PRESENTATIONS

1. Bogomolni, A. and O. Nichols. Community Science and Cooperative research to address rebounding Marine Mammal Populations. American Fisheries Society, Annual Meeting, Atlantic City NJ, August 18-22, 2018.
2. Bogomolni, A. and O. Nichols. Community Science and Cooperative research to address rebounding Marine Mammal Populations. American Fisheries Society, Western Division Conference. Anchorage Alaska May 20-25, 2018.
3. Bogomolni, A. and O. Nichols. A Cooperative Training Workshop on Marine Animal - Fisheries Interactions for Scientists, Fishermen, Marine Mammal Stranding Network Personnel and Fisheries Managers. Marine Mammal Health and Stranding Response National Meeting, Shepardstown, WV. September 5-9th 2016
4. Bogomolni, A. Morbilliviruses in Marine Mammals. Marine Mammal Health and Stranding Response National Meeting, Sheperdstown, WV. September 5-9th 2016.
5. Andrea Bogomolni, Michelle Barbieri, Sylvain De Guise, Deborah Fauquier, Frances Gulland, Christine Fontaine, Steven Osborn, Gayle Sirpenski, Teri Rowles. Determining relative susceptibility of Hawaiian monk seal, northern fur seal, California sea lion, and northern elephant seal to phocine distemper virus using an in- vitro approach. Society for Marine Mammalogy 21st Biennial Conference. San Francisco, Ca. December 2015.
6. Bogomolni, A. "Marine Mammals as Sentinels of Ocean Health. Wildlife Society 22nd Annual Conference, Winnipeg, Canada October 18th, 2015. Invited speaker, special session on Aquatic Animal Health and Management.
7. Bogomolni, A. A Collaborative Approach to Understanding the Ecological Role of Seals in the Northwest Atlantic. Greater Atlantic Regional Stranding Conference, October 15, 2015. Hyannis, MA.

8. Bogomolni A., Bass A., Fire S., Jasperse L., Levin M., Waring G., De Guise S. Saxitoxin Increases Phocine Distemper Virus Replication upon In-Vitro Infection in Harbor Seal Immune Cells. 3rd International One Health Conference, Amsterdam, the Netherlands, March 14-18th 2015.
9. Bogomolni, A. Thirteen years of Seal Health and Disease: Studies in Collaboration with the NEFSC, PSB Woods Hole, MA. Atlantic Scientific Review Group. February 5, 2014. NEFSC, Woods Hole, MA.
10. Bogomolni, A., Risatti, G., Nielsen, O., Frasca, S. Di Giovanni, R., Schuh, J. De Guise, S. 31st Northeast Regional Stranding Conference April 29-May 2, 2013. Riverhead, NY. Quantifying differences in species susceptibility: Phocine Distemper virus in seals of the Northeast U.S.
11. Bogomolni, A., Risatti, G., Nielsen, O., Frasca, S. Di Giovanni, R., Schuh, J. De Guise, S. Determining Differences in Species Susceptibility: Phocine Distemper Virus in seals of the Northeast US. Coastal Ecosystems and Human Health Workshop. University of Exeter, Environment and Sustainability Institute, Cornwall, England. March 20, 2013.
12. Bogomolni, A. Marine Viruses Overview and Emerging Epizootics in Pinnipeds of the Northeast U.S. Phocine Distemper virus. OHH Gordon Research Conference June, 8-10, 2010 University of New England, Biddeford, ME.
13. Bogomolni, A. The Eastern Caribbean Cetacean Network (ECCN). National Marine Animal Health and Stranding Network Conference. April 6-9th 2010 Shepherdstown, WV.
14. Bogomolni, A. Ellis, J., Gast, R., Dennett, M., Lentell, B., Pokras, M., Touhey, K., and Moore, M. Victims or Vectors? Zoonotic diseases in marine mammals and seabirds on the northeast U.S. coast. OHHi Principle Investigator meeting, Seattle, WA. October 7th 2009.
15. Bogomolni, A., Early, G., Hayward, B., Lentell, B., Pugliares, K., and M. Moore. Assessment and comparison of health condition in bycaught and stranded marine mammals of the NE U.S. Northeast Regional Stranding Conference: Providence, April 16, 2008.
16. Andrea Bogomolni, Katie R. Pugliares, Kristen Patchett, Sarah Herzig, CT Harry, Jane LaRocque, Kathleen M. Touhey, and Michael Moore. Diagnosis of mortality of stranded marine mammals on Cape Cod and Southeastern Massachusetts from 2000-2006. Northeast Region Stranding Conference: Providence, RI, April 16, 2008.
17. Bogomolni, A. Ellis, J., Gast, R., Dennett, M., Lentell, B., Pokras, M., Touhey, K., and Moore, M. Zoonotic disease surveillance and antibiotic resistance patterns in marine mammals and seabirds on the northeast U.S. coast. 17th Biennial conference on the biology of Marine Mammals: Cape Town, South Africa Nov 29- Dec 3 2007.
18. Bogomolni, A. Ellis, J., Gast, R., Dennett, M., Pokras, M., Touhey, K., Tseng, F., and Moore, M. Emerging zoonotic diseases in marine mammals and seabirds: A global perspective. 4th Pan Commonwealth Veterinary Conference. Barbados, West Indies. Nov 4th-8th, 2007.
19. Bogomolni, A. and J. Ellis. Emerging diseases and Parasites in Marine Birds and Mammals: Common Eider Case Study. 12th annual Cape Cod Natural History Conference, Wellfleet Audubon, Hyannis, MA March 17 2007.

XV. INVITED SPEAKER

- 2021 Keynote Graduation Address, The Greene School, West Greenwich, RI June 12.
- 2021 NASA, Destination Space 2021: Planet Earth "Seals as Sentinels" April 14.
- 2020 Monomoy Middle School. Virtual Assembly Speaker for 7th Grade Science. "The Return of Seals to Cape Cod" December 18.
- 2020 US East Coast Whale Watch Naturalist Workshop. "Seals and Society," April 19.
- 2020 Monomoy Middle School. Virtual Assembly Speaker for 7th Grade Science. "The Return of Seals to Cape Cod," December 18.
- 2019 Piscataqua Science Café: Seals on the Shoals. January 16, Portsmouth Brewery, Portsmouth, NH.
- 2018 Center for Coastal Studies, Lecture Series at Napi's: "Seals as Sentinels of Ocean Health," November 28, Provincetown, MA.
- 2018 Salem State University: "Seals and Society," Animals and Society, Invited Seminar Speaker- Political Science Department.
- 2018 Ocean Science Café, Woods Hole Oceanographic Institution "Seals, Sharks and Humans, "Sea Dog Brew Pub, Yarmouth, MA, December 5.
- 2018 Town of Chatham Selectmen Meeting, invited presentation on the "History and Biology of Seals on Cape Cod" Chatham, MA, November 5.
- 2018 Wellfleet Town Meeting: Panelist Seal Expert, September 27.
- 2018 "Mythbusting our Fears: Sharks and Seals" Co-Presentation with Dr. Greg Skomal. National Marine Life Center, Plymouth, MA. April 5.
- 2017 Development of Ocean Science Café: "Seals, Sharks and Humans, Oh MY!" Andrea Bogomolni and Owen Nichols. Quicks Hole, Woods Hole. January 31.
- 2017 "Marine Mammals and Morbillivirus." UCONN Pathobiology Seminar Series, invited seminar speaker, Storrs, CT, November 29.

- 2017 "Return of Seals to Cape Cod: Lessons on Conservation, Resilience, Research and Discovery" Sandwich Newcomers, Sandwich, MA October 8.
- 2017 "Community Science and Cooperative Research: Bridging the Gaps Between Ocean and Human Health" Ridgeway Seminar Speaker Series, Mystic Aquarium, September 20.
- 2017 "Isle of Shoals, Maine: Big Insights from a Tiny Island" Pinniped Entanglement Workshop, Portland, ME, April 3-4.
- 2017 "Gray Seals and Ocean Health: Benefits, Risks and Realities" Marine Mammal Commission Annual Meeting, Falmouth, MA, April 5-7.
- 2017 Marine Zoonoses training for the Northeast Fisheries Observer Program, February 17.
- 2016 Unintended Consequences "Seals" Workshop. Nantucket, MA, November 8-9.
- 2016 "Seals"- Seal Science for Monomoy Middle School, Chatham, MA, 2016-2018.
- 2016 "Seals"- Meet the Fleet, Cape Cod Commercial Fishermen's Alliance. Chatham, MA, March 30.
- 2016 "Going Gray" Elder Services of Cape Cod at WHOI, February 19.
- 2015 "Gray Seal Ecology on Cape Cod" Falmouth Historical Society, Falmouth, MA, March 24.
- 2014 "Marine Mammals as Sentinels of Ocean Health" 22nd Wildlife Society Meeting, Special symposium on Emerging Topics in Aquatic Medicine and management, Winnipeg, Manitoba, CA. October 19.
- 2013 "Marine Mammals: Sentinels of Ocean Health" URI/RI Sea Grant, March 19.
- 2013 Grey Seals: Hook-nosed Sea Pigs Woods Hole Oceanographic Institution, Public Event- White Sharks/Grey Seals, Chasing the Cape's Most Charismatic Predators. WHOI, August 7.
- 2013 Seals as Sentinels" Cape Cod National Seashore Docent Training, Wellfleet, MA. June 8.
- 2010 "Establishing a model marine mammal stranding network in Southeast India": Necropsy and Stranding Response Training Madras Veterinary College, Chennai, India. November 3-11, 2010 Marine Mammal Anatomy, Physiology and Strandings.
- 2009 Boston Museum of Science, Boston, MA. Invited speaker for volunteer training and to give background on the current exhibit, "Whales- Tohora.
- 2007 CSI: Marine Mammals Cape Cod Technology Council and Cape Cod Community College, Jr. Tech Program: Co-instructor for a 2-day course on marine mammal physiology and anatomy for high school students. July 16-17.
- 2007 "Bridging the Gap: Marine Mammal Strandings, Ocean and Human Health" Cape Cod Stranding Network- Review Training August 14.
- 2007 Right Whale Necropsy Forensics Wellfleet Audubon Whale Watch Naturalist Training. March 14 Provincetown, MA.
- 2007 "Marine Mammals: Sentinels of Our Ecology" Salem State College- Invited speaker on behalf of the Biological Society for the 25th Annual 2007 Darwin Festival. Salem, MA February 13.
- 2006 Marine Mammals Workshop on the Fate and Bioavailability of Mercury in Aquatic Environments: Effects on Human Health. November 15-16. UNH, Durham, NH.
- 2006 National Marine Life Center- Lecture series participant, July 26.
- 2006 Whale of a Week Martha's Vineyard Historical Society August 3, Vineyard Haven, MA.
- 2006 Zoonoses in Marine Mammals Hawaii Pacific University- Zoonoses in Marine Mammals, Necropsy facility set up, sampling and protocol development. October 2006.
