EDUCATION

B.S. Wildlife Fisheries and Conservation Biology
UC DAVIS, 1999

B.A. Studio Art
UC DAVIS, 1999

M.A. Biology, Boston University Marine Program
BOSTON UNIVERSITY, 2003
Thesis:

Ph.D. Pathobiology, Dept of Pathobiology & Veterinary Sci.
UCONN, 2014

Certificate in Core Public Health Competencies,
UCONN Masters in Public Health & Connecticut Department of Public Health
2012

PROFESSIONAL DEVELOPMENT

Community Leadership Institute
Cape Cod, Class of 2017

Racial Equity and Justice, Racial Justice Institute, June 2019 & February 2022

Facilitation- "Facilitating for Change" New Learning Journey
August 24-26 2022

ANDREA BOGOMOLNI, Ph.D

OCEAN STEWARD - EDUCATOR - COMMUNITY SCIENTIST

I am an interdisciplinary community scientist working to improve ocean and human health. My expertise includes understanding pathogen transmission in marine animals, disease diagnostics, ecosystem intersections, fishery and marine mammal interactions, conservation challenges of rebounding species, education, outreach, and most recently philanthropic program management.

The goals of these efforts are to listen and learn, to identify the gaps and actions needed to mitigate human impacts on marine species while also allowing sustainable use of our limited natural resources and addressing the needs of our communities to do so.

WORK EXPERIENCE

Consultant

Blue World Research Institute, April 2022- present

Seal CODEX, Community Coordinator. Partnership with WildMe, BOEM and BWRI to coordinate conversations and communication to the seal research and conservation community of the northeast US to utilize the seal CODEX photo ID platform.

Program Officer

Island Foundation, Marion, MA | May 2019-present

Responsible for managing the education and environment portfolio areas of the Foundation. Manager of the Fishing Gear Marking Development Fund created to incentivize the creation of geo-locating technology to apply rope-less technology in our oceans. Developed a Conservation Resiliency Fellowship to address conservation fatigue.

Visiting Investigator

Woods Hole Oceanographic Institution, Woods Hole, MA | Sept 2018- August 2019

Characterizing marine mammal bycatch and depredation through cooperative fisheries research. Research based on multidisciplinary studies working with commercial fishermen to video document occurrence of bycatch and depredation and applying genomics and hard part analysis in the lab to understand diet of seals.

Consultant

Revive & Restore Sausalito, CA | May-June 2019

Ocean Genomic Horizon Scan. A project to determine the biggest risks and solutions for Ocean Health and identify issues to distribute \$10 million in funds. Tasked with reviewing the most recent developments in Marine Mammal Health and interviewing the global leaders in marine mammal science.

Postdoctoral Fellow

Woods Hole Oceanographic Institution, Woods Hole, MA | Sept 2015-Sept 2017

Morris Animal Foundation Traineeship Fellow. Postdoctoral project title: Assessing the pathogenesis and host susceptibility to dolphin morbillivirus in cetaceans.

RESIDENCIES & FELLOWSHIPS

2019- Emerging Young Scientist is Residence, Mystic Aquarium (offered)

2018- Knoll Farms, Better Selves Fellow

2018- Peaked Hill Trust, Artist/Scientist in Residence at the Cape Cod National Seashore

AWARDS

Switzer Environmental Leadership Fellowship, Switzer Foundation

Best Student Poster, American Fisheries Society Southern New England Regional Chapter Meeting

Multicultural Fellowship Award, UCONN

Department of Pathology and Veterinary Sciences, Pre-Doctoral Fellowship

Sounds Conservancy Grants Program/QLF Grant, Award

Interdisciplinary Research Training Initiative on Coastal Ecosystems and Human Health Fellowship (IRICH)

Humes Award Grant, Boston University Marine Program

Postdoctoral Trainee

Woods Hole Oceanographic Institution, Woods Hole, MA & NOAA | Jan-Sept 2015
Tasked with reviewing the most recent developments in Marine Mammal Health and interviewing the global leaders in marine mammal science. Trainee-ship postdoc opportunity allowed for experience working with the NOAA Marine Mammal Health and Stranding Response Program. Duties included work to develop Health MAPP, a database system incorporating environmental, animal and ocean health data to understand marine coastal and ocean issues.

Graduate Research Assistant

UCONN, Storrs, CT Dept. of Pathobiology & Veterinary Science | Sept 2011- Sept 2014
Conducted graduate research on Phocine Distemper Virus including experimental design, sample coordination, laboratory work, writing manuscripts for peer review publication and thesis writing.

Research Associate II | March 2007-January 2015

Research Assistant II | Oct 2005-March 2007

Woods Hole Oceanographic Institution, Woods Hole, MA.
Duties include research, necropsy, writing and sample coordination for several projects. The major projects involved a NOAA Oceans and Human Health project to conduct a survey of marine animal zoonotic pathogens as well as determination of cause of death for marine mammals. publication and thesis writing. Publication of several peer reviewed manuscripts, lectures and talks at national and international conferences. Related skills include necropsy of marine birds, marine mammals and sharks, sample preparation for virus, fungal bacterial and parasite pathogens, database creation and implementation. Collaborations and outreach with the fishing industry and partners, marine mammal stranding networks, terrestrial wildlife researchers, academic institutions as well as marine laboratories.

Consultant

Biodiversity Research Institute, Portland, ME | July- Sept 2008
Development of protocols for scat collection from free ranging harbor seals for mercury analysis.

Stranding and Database Coordinator

Eastern Caribbean Cetacean Network, Sept 2005- Sept 2015
Organized historical and current marine mammal stranding data for the Eastern Caribbean as well as organized trainings and workshops for the Spanish, English, French and Dutch Caribbean. Capacity building involved training both live and dead response to facilitate the creation of marine mammal stranding networks in these island nations and coordinating supplies and global expertise.

Necropsy Coordinator

Cape Cod Stranding Network, Inc. Buzzards Bay, MA | April 2003- Oct 2005
Coordinated marine mammal necropsies of small and large cetaceans, seals and porpoise. Accomplishments include the creation of a streamlined data collection and sample processing method for all dead stranded marine mammals including a code system for cause of mortality.

Guest Investigator

Woods Hole Oceanographic Institution, Woods Hole, MA | April 2003- Oct 2005
Appointment in the lab of Dr. Michael Moore.

Guest Student

Woods Hole Oceanographic Institution, Woods Hole, MA | April 2003- Oct 2005
Appointment in the lab of Dr. John Stegeman to complete Master's research work on CYP1A1 studies in seals on Cape Cod.

COMMUNITY OUTREACH

Invited Speaker, Invited to speak at over 70 community events on the ecology and biology of seals, conflict issues with seals, collaborative research, one health, marine mammal health, marine mammal stranding, toxicology and more over the last 20 years.

Convener, Organized over 15 Regional, National and International Meetings focused on marine mammal stranding, seals and ecosystem health. Co-organized workshops with federal partners as well as regional grassroots international organizations and experts. ‘

Co-organizer, “Collaborative Workshop to Address Seal-Fisheries Interactions.” Virtual workshop to bring marine mammal stranding, fisheries managers and fishermen from the NE and NW Atlantic together to address seal bycatch. Virtual, December 9-10th 2021.

Recent Outreach

Lead, NASRC 7th meeting. Power of Partnerships. June 30th 2021. Virtual meeting in partnership with the NEFSC, Woods Hole Seal Research Program.

Graduation Commencement Keynote speaker, The Greene School, West Greenwich, RI June 12, 2021.

Co-Creator, “Seals and Society” a traveling exhibit through the New Bedford Whaling Museum. <https://www.whalingmuseum.org/exhibition/seals-and-society/>

Webinar Series, Creation of a Webinar meeting summer series for NASRC (2020).

Chair, NASRC 6th meeting. “Seals and Society: Shifting Ecological and Social Baselines,” UMass Dartmouth, SMAST Campus, New Bedford MA. May 3rd 2019.

Panelist, Cape Cod National Seashore, White Shark Public Information Session: Sharks, Seals, and Public Safety, November 14th 2018 Nauset Middle School, Orleans, MA.

TEACHING EXPERIENCE

Faculty

Marine Studies Consortium, Boston, MA | Sept 2020– current

Bio 240A, Introduction to Marine Mammals. Development of curriculum and course work for undergraduate students from several universities. This course covers basic biology, anatomy and physiology, threats to marine mammals, laws and human dimension research. Fall 2020 was developed into an on-line synchronous course.

Adjunct Faculty

Massachusetts Maritime Academy, Buzzards Bay, MA | March 2019 – May 2021

Marine Mammals, 4329. Biology, anatomy and physiology, threats to marine mammals, laws and human dimension research, with an emphasis on species and issues relevant to the experiences that the cadets at MMA may encounter. This includes interactions with North Atlantic rights and the navigational challenges to both whales and vessels. Spring 2020 & 2021 were developed into an on-line synchronous course.

Adjunct Lecturer

Bridgewater State University, Cape Cod. Yarmouth, MA | July 2015- Nov 2020

BIOL 408 Marine Mammal Biology, (07/05/2015-8/04/2019); Marine Conservation Challenges, Senior College (Fall 2020). Development of curriculum and course work for 10-20 undergraduate and graduate students in this intensive summer science and writing course. Along with this course, lectures are given outside of the normal course time for the "ask the professor" lecture series to promote open public education and outreach. A one -day workshop was also developed on Marine Mammals and Ocean and Human Health for the public.

Teaching Faculty

Shoals Marine Laboratory, UNH/Cornell Appledore Island, ME | May 2015- Aug 2019

Co-Instructor for Marine Mammal Biology for undergraduate students from several universities. The course is an intensive 2-week summer course where students and faculty are expected to work 10 hours a day immersed in science, writing, teaching and communicating science. Classes are between 10-20 students. Students and faculty live at the Shoals Marine Lab. Related skills include course development, small boat operation and teaching science to a diverse range of students in an intensive 2 weeks course period. Education program analysis and evaluation is completed for every year of the course.

Marine Mammal Research Mentor, Seal Research Program Lead

Shoals Marine Laboratory, UNH/Cornell Appledore Island, ME | May 2011- present

Development of science based curriculum and implementation of a long term undergraduate education program for Seal Research.

The data collected been used for aiding in management of marine mammals and presented at national and international conferences. internship program supports up to three interns each summer. Skills include boat Instruction, handling, photo ID, teaching, curriculum development and organizing guest lecturers to the island. Fourteen students have been mentored through this program.

Instructor

Woods Hole Children’s School of Science, Woods Hole, MA | June 2002- Aug 2018

Developed coursework and curriculum for several classes including: Seashore Life (age 7-8), Marine Mammals (age 13-15), Experiments in Woods Hole (age 13-16) and Global Sustainability (age 13-15). Classes are three weeks long each summer.

(outreach cont'd)

One Health Task Force Participant, One Health Commission 2018.

Pier Host Program, at the Chatham Fish Pier, MA. Collaboration with the program started by the Cape Cod Commercial Fisheries Alliance, in partnership with the Atlantic White Shark Conservancy and the Northwest Atlantic Seal Research Consortium. 2018-present.

Chair, Northwest Atlantic Seal Research Consortium 5th Biennial Meeting: "Seals Science and Management: Where Research and Reason Meet." SMAST, New Bedford, April 27th 2018.

WHOI Ocean Science Café, Development of a community science lecture series with the Woods Hole Oceanographic Institution. First lecture, "Seals, Sharks and Humans." 2018.

Session Chair, Anatomy and Morphology Speaker Session, Society for Marine Mammalogy, Halifax NS, Canada, October 28, 2017.

Panelist, Pinniped Disentanglement Workshop Society for Marine Mammalogy Conference, Halifax, NS Canada October 28th 2017.

Co-Chair, Northwest Atlantic Seal Research Consortium, Health Working Group. Completed report on Pinniped Health Risk Factor. Published as a technical report through NOAA's Greater Atlantic Regional Office (GARFO). 2016.

Organizer, A Cooperative Training Workshop on Marine Animal - Fisheries Interactions for Scientists, Fishermen, Marine Mammal Stranding Network Personnel and Fisheries Managers Co-organized with O. Nichols. 2015.

SCIENTIFIC REVIEW

- 2022- Editorial Board, Review Editor** of Human-Wildlife Interactions; specialty section of Frontiers in Conservation Science
- 2022- Reviewer**, Frontiers in Marine Science
- 2022- Reviewer**, Frontiers in Conservation Science
- 2019- Reviewer**, Northeastern Naturalist
- 2015- Reviewer**, Diseases of Aquatic Organisms

APPOINTMENTS & COMMITTEES

- 2022 84th Massachusetts Legislative Seminar Cohort**, Massachusetts Senate Office of Education and Civic Engagement
- 2021 Adjunct Faculty**, UMASS Boston, Boston, MA | Nov 2021- present
- 2020 At-Large Member**, Stellwagen Bank National Marine Sanctuary, Sanctuary Advisory Council (2020-current).
- 2020 Grant Reviewer**, Mass Environmental Trust. (2020-2021)
- 2017 Community Leadership Institute Cape Cod**, Class of 2017.
- 2017 Board of Trustees**, Member, National Marine Life Center, Buzzards Bay, MA. (2016-2019)
- 2017 Board Member**, Friends of Monomoy National Wildlife Refuge, Chatham, MA. (2016-2019)
- 2012 Chair, Northwest Atlantic Seal Research Consortium (NASRC)** Co-founder, Steering committee member, sealconsortium.org (2012-current). lead member and creator of a team delivering products and services related to conservation, education, and/or outreach programs for protected species, specifically pinnipeds in the NW Atlantic.

PERMITS & AUTHORIZATIONS

Principle Investigator- MMPA General Authorization 20412: 2016-2021; 25751 2021-2026
Co-Investigator MMHSRP Permit # 18786-01 to 05: 2017-2021; #18786-06 2021-2022
Co-Principle Investigator MMPA General Authorization 17670-16260 (rev) NEFSC: 2011-2026
NMFS Education/Parts: Permit holder (2013-current).
NMFS Marine Mammal Tissues for health research purposes: Permit holder (current).

RECENT GRANT AWARDS

Woods Hole Sea Grant, Human Dimensions of Rebounding Populations of Seals and Sharks on Cape Cod, Collaborator. (\$106,000 PI Jennifer Jackman, Salem State) 2019.

National Marine Sanctuaries Foundation. Characterizing Depredation and Bycatch in NE Sink Gillnet (\$119,000, PI O. Nichols, Co- PIs A. Bocconcelli, A. Bogomolni and D. Feeney) 2018.

US Marine Mammal Commission. Pilot funds to Characterize Depredation and Bycatch in NE Sink Gillnet (\$40,000 PIs A, Bocconcelli, A. Bogomolni, O. Nichols) 2017.

World Animal Protection. Photo Identification and Population Counts at the Isles of Shoals: Characterization Entanglement in Harbor Seals and Gray Seals Documented at Duck Island, Isles of Shoals, Maine (\$1,000, PI) 2016.

Ocean Life Institute, Woods Hole Oceanographic Institution. Cetacean Susceptibility to Morbillivirus (\$38,923, PI R. Gast WHOI) 2015.

Morris Animal Foundation Postdoctoral Traineeship Fellowship (\$100,000) 2015.

CINAR. Assessing the pathogenesis and host susceptibility to dolphin morbillivirus in cetaceans (\$20,290, PI M. Moore WHOI) 2015.
